JOB SUMMARY:

Performs advanced (senior-level) inspection work. Performs skilled, professional construction project observation and reporting for evaluation of quality, schedule and conformance with contract documents, regulations, and agency policies. Work involves overseeing and/or conducting inspections and quality control. Works under minimal supervision with considerable latitude for the use of initiative and independent judgment. May supervise others.

ESSENTIAL FUNCTIONS:

- Assures compliance with federal, state and local codes, standards, contractual provisions, regulations and special requirements.
- Evaluates, prepares and maintains inspection records and reports.
- Inspects work for compliance with contract plans and specifications; oversees the investigation of complaints from building occupants or reports of careless or reckless execution of the work.
- Monitors and assists project manager in resolution of RFI's, proposed change orders and submittals.
- Inspects and assesses damage from the construction process in existing buildings as well as new facilities.
- Assists project manager in coordinating activities and schedules with utility companies, contractors, end users/Using Agency and property managers; coordinates necessary "hot permits" with property manager and Facilities Management division.
- Assists project manager in coordinating and policing staging areas, parking and utility shutdowns with Using Agency and/or property manager.
- Monitors impact of remodeling and renovation activities within an occupied building on the environment of the portions of the building that remain inhabited.
- Inspects the project for overall cleanliness and safe approach to the work; monitors the safe management of and storage of hazardous materials utilized in the construction process.
- Assists project manager in coverage of critical early morning and after hour construction activities such as concrete placements and utility shutdowns.
- Monitors the activities of the Construction Materials Testing Firm and the Testing and Air Balancing Company to ensure that sufficient resources and quality controls are provided for the project and those contractual obligations are met.
- Monitors and provides oversight in the proper and lawful disposal of construction waste and hazardous materials disposal.
- Assists project manager in inspecting the work for proper completion, quality and quantity as it relates to the monthly pay applications
- Assists project manager in inspecting the work for substantial completion and development of punch list.
- Assists project manager in inspection the work for final completion and resolution of final issues.
- Assists in identifying and selecting services for inspection and evaluation.
- Assists project manager with the Project Closeout Procedures ensuring that all closeout documentation is received in a timely manner, reviewing completeness of the documentation, and, assisting, coordinating and witnessing the operations training for the Using Agency building operators/managers.
